SMART HORSE PICKS

MOUNTAINEER 08/03/2025

All picks and best bets are suggestions only. They reflect a confident ranking of contenders based on form, pace, and projected race shape — not a guarantee of winners.

Use the cards however you're most comfortable — for win bets, exactas, trifectas, or multi-race wagers like the Pick 4 or Pick 5.

How to Use These Sheets

• Each race lists the top 3—5 contenders based on energy distribution, internal pace figures, and matchup fit.

• These are not "hot tips" — they are pace-based projections built on Sartin and Brohamer methodology.

• Use the sheet as a guide — the real edge comes from watching the board and identifying value.

Key Betting Notes

• Always check scratches and track conditions — a key scratch or surface change can completely reshape a race.

• A and B contenders historically perform well, but no pick sheet can guarantee results.

• Some cards may only offer a few true betting opportunities. Other days, several races may shape up well once odds settle.

• Fair odds lines are coming soon. These will help identify underlays and overlays once prices are posted.

• If your sheet isn't loading, it likely means the card has just been updated based on how the track is playing or due to a late scratch — time permitting.

Simply return to your dashboard and re-click the card to load the latest version.

Multi-Race Ticket Tips

Use spread strategies and structured tickets for horizontal bets. There are free tools available to help — or even ChatGPT can assist if you input your opinions clearly.
